Technical Data Sheet

Aquaban® 9001A (9001A)

This product is a concentrated general purpose water-based treatment for paper and corrugated board. It imparts a high level of water repellence. This product should be diluted with water before use, depending upon protection required. Typical dilution is 1:1 with water.

Board coated with this product has the following features:

- water repellence
- water resistance
- repulpable

The coating can be applied by using a blade or a rod coater, preferably at the wet end of the corrugator. It is also sprayable. Treated board is gluable with most cold set and hot melt adhesives. It is also printable with most flexo inks (at dilution 1:1).

This product conforms to FDA regulations 21 CFR §176.170 and §176.180, subject to the finished food-contact article meeting the extractive limitations under the intended conditions of use.

TYPICAL PROPERTIES:

Coating Type:	polymeric emulsion blend
pH:	10.0 - 11.0
Specific Gravity:	0.95
Color:	white
Viscosity:	15 - 30 seconds (EZ#2)
Freeze/Thaw:	unstable
