

THE INTERNATIONAL GROUP, INC.

Petrolatums for industrial
and personal care

YOUR #1 CHOICE FOR PETROLATUMS

Features & Benefits

- A unique portfolio consisting of low and high melt points
- Extensive industry knowledge and expertise
- Custom formulation

The International Group, Inc. has been an industry leader for over 75 years in the production of a variety of waxes ranging from petrolatums to paraffins. Our product lines are synonymous with quality and product consistency.

The Petrofibe® and Petax® product portfolio are a complex semi-solid combination of Paraffin Wax, Microcrystalline Wax and Mineral Oil. The grades of petrolatum vary in consistency and color and are used in a diverse range of end applications, from equestrian surfaces to concrete cure coatings, personal care, dust control, candles, heat set inks and a multitude of applications.

IGI develops customized product solutions that meet unique requirements and applications. We are dedicated to the sustainable manufacture and secure supply of high-quality wax products, through vertical integration, custom manufacturing capabilities, and our proprietary sourcing strategy. Our goal is to help you achieve the quality and differentiated products required to meet your customer needs.

THE INTERNATIONAL GROUP, INC.

Petrolatums for industrial and personal care

Characteristics

Product	Drop Melting Point °F (ASTM D127)	Cone Penetration @77 °F (ASTM D937)	Color (ASTM D6045)	Recommended end use application
PETROFIBE® 0201A	130-160	140-180	6.3	Equestrian surfaces
PETROFIBE® 0202B	130-150	161	2.0-4.0	Concrete cure coatings
PETROFIBE® 0220A	128-144	165-215	1.5-2.5	Multiple industrial end uses
PETROFIBE® 0226A	150-200	N/A	>8.0	Anti-corrosion
PETROFIBE® 0251A	122-133	50-110	2.0-5.0	Dust control
PETROFIBE® 0252A	150-159	150-200	5.0-6.5	Heat set inks
IGI ® 2230A	150-167	N/A	+16 - +20	Container candles
PETAX ® 0310A	125-140	175-210	+10 - +20	Personal care
PETAX ® 0386A	125-140	175-210	+20 - +30	Personal care
